Servicing

Here at Britannia Security and Maintenance we offer Annual & Biannual service contracts for roller shutter doors to comply with the latest in HSE making it a legal requirement for your roller shutters to be serviced at least once a year.

As well as being a legal requirement, having your roller shutter doors serviced has a wide range of benefits both from a financial & safety point of view.

WHY YOU REQUIRE A SERVICE ?

Roller shutters are operated and used on a daily/ weekly basis, it is inevitable that they will become damaged over time. Servicing on a bi-annual/annual basis helps to ensure your shutters run smoothly and have a long life, spotting problems early and saving you from expensive repairs.

WHAT WE OFFER

With over 30 years in the industry we can offer a bi- annual servicing programm whereby our qualified door engineers will provide a full service on your roller shutter, provide a written report and history on the doors and make reccomendations to get your doors compliant with the latest health and safety legislation.

CURRENT LEGAL REQUIREMENTS

It is now stipulated within the Machinery Directive, European Standard EN12341 to 1:2003 that all types of manually and power operated doors are be subject to a controlled regular maintenance and service contract

Current Regulation

Due to HSE regulation 18, all industrial doors and shutters should be inspected & maintained regularly.

The following pieces of legislation are particularly relevant when considering your legal responsibilities with regard to maintenance of industrial doors. These regulations are binding on the employer or occupier of a building or premises who have a duty to safeguard the health and safety of employees and other persons on or about the premises. Industrial Door Legal Requirements include:

Regulation 5 of the Workplace (Health, Safety and Welfare) Regulations 1992

Extract: "The equipment devices and systems to which this regulation applies shall be subject to a suitable schedule of maintenance."

This applies to all types of roller shutter doors whether manual or electrical operation.

Regulation 5 of the Provision and Use of Work Equipment Regulations 1998 (PUWER)

Maintenance

5.— (1) Legal requirements dictate that every employer shall ensure that work equipment is maintained in an efficient state, in efficient working order and in good repair.

(2) Every employer shall ensure that where any machinery has a maintenance log, the log is kept up to date.

Extract: "Where necessary in order to safeguard the safety of relevant persons. The responsible person must ensure that the premises and any facilities, equipment and devices provided are subject to a suitable system of maintenance and are maintained in an efficient state and in efficient working order and in good repair."
